MEMORANDUM FOR THE DIRECTOR

SUBJECT: SNIE 93-59: Implications of the Financial Crisis in Brazil

1. This estimate is a crash paper which considers the implications of Brazil's present financial crisis, particularly with respect to US-Brazilian relations. It was laid on by the USIB on 7 July on the initiative of the Department of State and the ACSI.

The estimate was coordinated at the representative level without difficulty, and we anticipate no problems at the USIB.
